

Dear FCC Commissioners & Staff:

Please vote against the bill to drop the requirement that telephone companies must provide internet service providers with access to their lines. I have used a local ISP for years and have been very satisfied with their service. They are immediately available for any question i have about technical support. They have been extremely reliable and I have never experienced any downtime in internet usage.

Thank you for your attention
Paul Forrest (docforr@iglou.com)

Sincerely,

paul forrest
